COMMUNITY CHARTER

More than a place. A way of living.

PREAMBLE

Chill Natural Village welcomes everyone who chooses to grow consciously in a supportive environment founded on authentic human values.

Chill Natural Village is part of a new paradigm in which values are the foundations, through a constant and joyful effort to live positively and promote personal fulfilment.

Chill Natural Village is an interactive creative laboratory that invites its members to become expanding authors and help build a different world.

I	**Self-awareness** Take a few minutes each day to observe your thoughts, emotions and actions.
II	**Active sharing** Actively share your resources (time, energy and skills) with other members. A simple caring look or word of encouragement can create meaningful expansion.
III	**Authentic communication** Express yourself clearly and respectfully, staying as close as possible to the facts. Remember that “the one who does” always takes priority over “the one who says”.
IV	**Collective creativity** Every day, look for a way to bring innovation or a new perspective to your interactions and projects.
V	**Gratitude and positivity** Express gratitude every day toward yourself and others. Maintain a joyful and positive attitude, even when facing challenges and obstacles.
VI	**Alignment with values** Regularly observe whether your actions and decisions are aligned with CNV values. Adjust your behaviour when necessary.

THE 7 PRINCIPLES OF COURTESY AND COMMUNITY LIVING

I

Always present the best version of yourself

Live with authenticity and honesty. Be consistent between your actions and your deepest values. Show gratitude and joy. Keep your word and your commitments. Be a source of positive energy and light. Transform negativity as soon as it appears, including all forms of addictive patterns. Ask for help when needed.

II

Share responsibility for everyone's safety and the living environment

Act with vigilance and responsibility for everyone's safety, especially children. Follow guidelines and help maintain a healthy, clean and safe environment for all. Protect the calm and peaceful energy of the place. Respect everyone's living environment.

III

Encourage everyone to express their talents

Celebrate the diversity of abilities and interests. Offer support, encouragement and an exchange of ideas in a spirit of collaboration and mutual appreciation. Be an “Expanding Author”, contributing to the collective creative endeavour. Show sincere enthusiasm for achievements and accomplishments. Participate in community projects as much as possible.

IV

Promote mutual support and harmony so that we can grow together

Be an active partner in building the common good and collective energy. Offer emotional and practical support. Cultivate teamwork, cooperation and personal and community development. Protect your own balance and that of others.

V

Respect and maintain the premises and shared spaces

Share responsibility for preserving the Village's physical environment. Every member is a co-author of the living environment and responsible for its cleanliness and upkeep. Be mindful of natural resources. Keep your living space tidy, ask for and mobilise help when necessary, and put your belongings away.

VI

Help beautify the Village and maintain a positive atmosphere

Pay attention to aesthetics and harmony in shared spaces. Recognise that atmosphere and beauty influence everyone's well-being and fulfilment. Keep spaces bright and welcoming and share decoration ideas. Prefer healthy food that is in harmony with nature.

VII

Make kindness and benevolence our fundamental mindset

Respect and harmony are states of mind to cultivate every day. Protect everyone's privacy and identity while maintaining a flow of positive energy and the highest level of respect.

OUR SHARED VALUES

By joining the Chill Natural Village community, I acknowledge that I share the following values:

I

Loyalty

Commit with integrity and consistency to the people and values you choose to support. This means honouring commitments, remaining true to your word in all circumstances, and embodying a trustworthy presence that others can rely on.

II

Benevolence

Cultivate compassion and mutual respect at the heart of every interaction. This means welcoming yourself and others sincerely, listening, and actively contributing to the highest well-being of yourself and others.

III

Authenticity

Encourage everyone to present themselves as they truly are, without artifice or pretence. This means valuing the genuine expression of talents, convictions and emotions in order to build a community rooted in love and truth.

IV

Sharing

Recognise our interdependence and mutual responsibility. This means helping one another heart to heart, building supportive bonds, and considering every member equal regardless of status or origin.

V

Constructive Dialogue

Resolve differences through active listening and the collective search for solutions. This means favouring peaceful communication, respecting diverse perspectives and deliberating together in service of the common good.

VI

Fulfilment

Promote personal and collective development in an environment of peace and freedom. This means creating the conditions for everyone to become the best version of themselves and contribute, in their own way, to positive transformation in the world.
